

Respect Worksheet

Students and staff often perceive respect differently.

Follow the steps below to have a conversation about respect in your school.

- 1 In the "Culture" section of your student reports, find the "percent positive" for the questions about respect.
- 2 In the boxes below, record the overall percent positive for each question.
- 3 Repeat steps 1 and 2 for the same two questions in your staff reports, pasting the overall percent positives to the right of the line below.
- 4 Compare perceptions of respect across your students and staff. What are your "respect gaps"? Record the differences in the boxes below.

FROM STUDENT REPORTS

FROM STAFF REPORTS

Adults at my school treat students with respect. →

[Gap: —]

Students at my school treat adults with respect. →

[Gap: —]

TIP

Extend this activity with an equity lens! Repeat focused on various student demographic groups (race, gender, grade level, e.g.)
